

# Glen Iris wetlands

## Fence replacement (Stage 1 of 3)

### About the project

The City of Stonnington is renewing the fence surrounding the Glen Iris wetlands as part of broader rejuvenation works of the wetland ponds and immediate surrounds.

The November works are stage one of a three stage fence renewal plan. Under this stage, the eastern section of the fence will be replaced.

It's estimated the three stages will take six months with the final stage of works to be completed by April 2025.

We recognise works of this nature will cause some inconvenience. Every effort will be made to keep disruption to a minimum and we thank you in advance for your patience and understanding.

### Works

- » Remove existing fence
- » Install timber post and hinged joint mesh fence
- » Install maintenance access gate

### Location

**Glen Iris Wetlands**  
(refer map)

### When

**Mid to late November 2024**

7am to 5pm (Monday to Friday)

### Pedestrians

Wetlands access via the eastern path may be restricted when the contractors are working on site.

Please use the western path during the works.
