# Safe routes to school

## Hi Kids!

Before you cross a road, it is important to remember to **STOP, LOOK, LISTEN** and **THINK!**

When you are walking, cycling or riding your scooter to school, it is important to follow the safe walking procedure when you need to cross a road:

- > hold an adult's hand (for younger children)
  - > choose a safe place to cross, where you have a clear view of traffic in all directions, and where drivers can also see you
-  one step back from the kerb or shoulder of the road if there is no footpath
  -  in all directions for approaching traffic
  -  for traffic approaching from all directions
  -  about whether it is safe to cross the road (when the road is clear or all traffic has stopped)
- > walk straight across the road. Keep **LOOKING** and **LISTENING** for traffic while crossing, and
  - > **never** ever look down at your phone or device when crossing the road.

Now, here is the safe walking procedure to follow when crossing at a school crossing:

-  and wait a step back from the kerb
  -  in all directions
  -  for traffic sounds
- > **wait** for traffic to stop (and for the crossing supervisor – if there is one – to indicate it is safe, for example, by blowing a whistle) before stepping onto the crossing
  - > make eye contact with the nearest drivers
  - > once traffic has stopped (and the crossing supervisor has waved you onto the road), **walk** across between the marked lines
  - > keep **LOOKING, LISTENING** and **THINKING** as you walk straight across to the other side, and
  - > **never** ever look down at your phone or device when crossing the road.
